ONE **BIG LITTLE VACATION**

You can measure Medora by its size. 130 people, give or take. But you can't measure the effect it has on the people who visit. This place speaks to you, the same way it spoke to a young Theodore Roosevelt. It's the way the horizon expands. The way an afternoon moves at its own good time. The way whatever notification lighting up your phone feels a little less important. This place may be a tiny dot on the map. But, by the time you leave, it'll hold a big place in your heart.

HOW THE *Theodore Roosevelt* MEDORA FOUNDATION CONTINUES HIS LEGACY

“Conservation means development as much as it does protection. I recognize the right and duty of this generation to develop and use the natural resources of our land; but I do not recognize the right to waste them, or to rob, by wasteful use, the generations that come after us.”

- Theodore Roosevelt, 1910

President Theodore Roosevelt was a practical conservationist. Today, we strive to follow his lead. To help celebrate the National Park Service that he helped shape so significantly, we've reignited our efforts to help ensure that our children, and our children's children, can enjoy our nation's wonders, too.

That's why, among other efforts, this report has been printed with a paper mixed with recycled sources. Helping American business while preserving natural forest. We believe President Roosevelt would say, "Bully!" to the balanced effort.
